

## KTH Royal Institute of Technology & University of California, Berkeley Student Exchange Research Programme

The Student Exchange Research Programme between KTH and UCB offers undergraduate (3rd year of a BSc) and graduate students (first year of an MSc program) the unique opportunity to immerse themselves in international research experiences. By collaborating with world-renowned researchers at UCB and KTH, students gain invaluable skills, knowledge, and global perspectives.

### Key Objectives:

**Enhance Academic Experience:** Provide students with hands-on research experience and exposure to cutting-edge research by working on specific research projects under the guidance of experienced mentors.

**Cultivate Global Citizenship:** Foster intercultural understanding and cross-cultural communication skills.

**Prepare for Future Careers:** Develop professional networks and gain valuable experience for future academic and industry pursuits.

### Eligibility

Undergraduate (3rd year of a BSc) and graduate students (first year of an MSc program) from all academic disciplines who have a strong academic record and a genuine interest in international research are eligible to be nominated.

### What we offer:

The programme offers the following benefits:

- 8-10-weeks research experience supervised by a KTH faculty member.
- A place in Digital Futures Summer Research Internship Programme
- Flight tickets in economy class
- Accommodation in a shared apartment
- Insurance
- Meal package/pocket money up to 20.000 SEK
