

# digital futures

## NEWSLETTER JUNE 2023

### Welcome to Digitalize in Stockholm 2023 on 18-19 October!

Digital Futures welcome to Stockholm and the Aula Medica stage: Helena Haapio, João Barros, Narges Ahmadi, Suresh Venkatasubramanian, Dimitra Simeonidou and Danny Spitzberg! We're excited and look forward to their talks at Digitalize in Sthlm '23.

The theme this year is COLLABORATION AND CONFLICT. Digital transformation requires collaboration on all levels, from human-machine teaming to interdisciplinary and cross-sectoral interactions. Yet, in a world ridden with conflict, it is a challenge to reconcile everyone's needs and make collaborations click. Join us in mapping productive paths to a collaborative future!

Digitalize in Stockholm 2023 will be a hybrid event – ONSITE participation at Aula Medica or ONLINE via a digital platform. It is free of charge and hosted by Digital Futures. [REGISTRATION](#) is now open!

[Stay tuned for the latest news about speakers, panels and research projects on Digitalize in Stockholm 2023 website.](#)

### Control for Societal-Scale Challenges: Road Map 2030

The field of control systems applies specific principles and methods to control dynamic systems so that they produce desired outcomes. Advances and transformations urge a shift in the conversation toward how control systems can meet grand societal-scale challenges - the focus of Control for Societal-Scale Challenges: Road Map 2030, published by IEEE Control Systems Society in May 2023.

### Newsletter Beach Edition in July

Summer is a good time to take a break and watch some of Digital Futures' inspiring seminars and lectures. Just like in 2022, Emil Björnson, Associate Director for Seminars and Workshops at Digital Futures will put together a list of great videos - just for you!

You will find them all in the upcoming Newsletter beach edition in July. Stay tuned!

### About us

Digital Futures is a cross-disciplinary research center that explores and develops digital technologies. We bring solutions to great societal challenges, in Sweden and globally. We generate knowledge, innovations and future leaders of high industrial relevance and strategic importance. Digital Futures is jointly established by KTH Royal Institute of Technology, Stockholm University and RISE Research Institutes of Sweden.
